or a NMFS agent within 20 days of the date of issuance of the inquiry, unless an extension is granted by NMFS.

(3) The submitter of the form must provide copies of additional data to facilitate verification by NMFS or NMFS' agent upon request. The NMFS auditor may review and request copies of additional data provided by the submitter, including but not limited to, previously audited or reviewed financial statements, worksheets, tax returns, invoices, receipts, and other original documents substantiating the economic data submitted.

[75 FR 78387, Dec. 15, 2010]

## § 660.120 Trawl fishery—crossover provisions.

- (a) General. In addition to the General provisions listed at §660.60, subpart C, the crossover provisions of this section apply to vessels operating in the limited entry trawl fishery.
- (b) Operating in north-south management areas with different trip limits—(1) Minor Rockfish.
- (i) If a trawl vessel takes and retains minor shelf rockfish south of 40°10′N. lat., that vessel is also permitted to take and retain, possess, or land yellowtail rockfish up to its cumulative limits north of 40°10′N. lat., even if yellowtail rockfish is part of the landings from minor shelf rockfish taken and retained south of 40°10′N. lat. Widow rockfish is included in overall shelf rockfish limits for all gear groups.
- (ii) If a trawl vessel takes and retains minor shelf rockfish north of 40°10′N. lat., that vessel is also permitted to take and retain, possess, or land chilipepper rockfish up to its cumulative limits south of 40°10′N. lat., even if chilipepper rockfish is part of the landings from minor shelf rockfish taken and retained north of 40°10′N. lat.
- (2) DTS complex. Differential trawl trip limits for the "DTS complex" north and south of latitudinal management lines may be specified in trip limits, Table 1 (North) and Table 1 (South) of this subpart. Vessels operating in the limited entry trawl fishery are subject to the crossover provisions in this paragraph when making landings that

include any one of the four species in the "DTS complex."

(3) Flatfish complex. There are often differential trip limits for the flatfish complex (butter, curlfin, English, flathead, petrale, rex, rock, and sand soles, Pacific sanddab, and starry flounder) north and south of latitudinal management lines. Vessels operating in the limited entry trawl fishery are subject to the crossover provisions in this paragraph when making landings that include any one of the species in the flatfish complex.

## § 660.130 Trawl fishery—management measures.

(a) General. Limited entry trawl vessels are those vessels registered to a limited entry permit with a trawl endorsement and those vessels registered to an MS permit. Most species taken in limited entry trawl fisheries will be managed with quotas (see §660.140), allocations or set-asides (see §660.150 or §660.160), or cumulative trip limits (see trip limits in Tables 1 (North) and 1 (South) of this subpart), size limits (see §660.60 (h)(5), subpart C), seasons (see Pacific whiting at §660.131(b), subpart D), gear restrictions (see paragraph (b) of this section) and closed areas (see paragraph (e) of this section and §§ 660.70 through 660.79, subpart C). The trawl fishery has gear requirements and harvest limits that differ by the type of trawl gear on board and the area fished. Groundfish vessels operating south of Point Conception must adhere to CCA restrictions (see paragraph (e)(1) of this section and §660.70. subpart C). The trip limits in Tables 1 (North) and 1 (South) of this subpart apply to vessels participating in the limited entry groundfish trawl fishery and may not be exceeded. Federal commercial groundfish regulations are not intended to supersede any more restrictive state commercial groundfish regulations relating to federally-managed groundfish.

- (b) Trawl gear requirements and restrictions. Trawl nets may be fished with or without otter boards, and may use warps or cables to herd fish.
- (1) Codends. Only single-walled codends may be used in any trawl. Double-walled codends are prohibited.
